

LSID Service

Kevin Richards

Providing GUID hosting services
for those technically limited

The need

- ▶ Data providers that have valuable biodiversity datasets
- ▶ Limited technical resources and skills to provide the data over the web
- ▶ A need for uniquely identifying the data of these providers
- ▶ => there is a need for GUID hosting services for these providers

Challenge flowchart

Set up LSID
hosting service

Add "authority" for an
example dataset/provider
(technically limited provider)
Multiple providers would
be good

Upload example data
and assign LSIDs

Make use of an LSID
